

Insulation disc DT

OVERVIEW

Insulation disc
DT

Insulation disc
DTM-A4

For fixing of:

- Insulation material
- Foils
- Plastic and wire fabrics

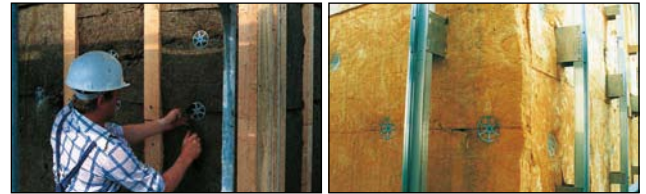

DESCRIPTION

- Insulation disc made of polypropylene.

Advantages/benefits

- Flexible ribs in the disc for a durable hold of the insulation material.

INSTALLATION

Installation tips

- For combining with fixings, screws, nails or for pushing on to the Cladding tie VB.

TECHNICAL DATA

Insulation disc **DT**,
impact-resistant polypropylene

Type	Art.-No.	disc-Ø	disc height	through hole	qty. per box
		[mm]	[mm]	d _f [mm]	pcs.
DT 90/4	1) 080957	90	7	4	250
DT 90/8	080958	90	7	8	250
DT 60/10	044317	60	5	10,5	50

1) The central hole is adapted in such a way that the disc clamps well on the 4 mm wire of the VB walltie.
